

## Perfect Playing Surfaces Start with Mansfield Sand

Visitors to Mansfield Sand's stand (242) at BTME 2025, taking place from 23 to 25 January at the Harrogate Convention Centre, will have the chance to explore an exceptional range of sand-based products designed to elevate the performance and health of sports pitches.

With over 170 years of industry expertise, Mansfield Sand leads the way in premium silica sand solutions. Their products cater to diverse applications in sports, landscaping, and equestrian industries, including professional stadiums, championship golf courses, and world-class equestrian arenas.

At BTME, Mansfield Sand's knowledgeable team will be on hand to discuss how their innovative range can transform your turf projects. Featured products will include:

### **Reinforced Rootzone**

Mansfield Sand's Reinforced Rootzones are crafted to enhance natural turf surfaces while meeting the high demands of today's sports industry. These products offer superior stability, drainage, and durability, ensuring consistency across surfaces.

### **The range includes:**

**Fibre Reinforced Rootzone** – reinforced with polypropylene fibres for added strength.

**Fibreelastic Rootzone** – combines polypropylene and flexible Elastane fibres for enhanced surface resilience.

**Fibresand** – perfect for maintaining surface integrity during periods of heavy use or winter wear.

### **Sand Soil Rootzones**

Ideal for renovation or new construction, Mansfield Sand's Sand Soil Rootzones blend high-quality Mansil 40 Silica Sand with screened topsoil to create an optimal foundation for healthy turf growth.

### **Sand Compost Rootzones**

For surfaces requiring organic-rich foundations, Mansfield Sand's Sand Compost Rootzones provide a premium blend that retains nutrients and enhances drought resistance, ensuring robust and healthy turf.

Release Date: December 2024

## Top Dressing

Mansfield Sand's Soil Top Dressing, tailored for fine turf surfaces, combines superior silica sands with sterilised and screened top-quality soils for a smooth, stone-free finish. Custom blends are available to meet specific turf management requirements.

## Mansil Silica Sand Sports Range

Sourced from Mansfield Sand's renowned Two Oaks Quarry, the Mansil range of silica sands is essential for constructing and maintaining sports surfaces, including golf courses, bowling greens, and winter sports pitches.

Visit Mansfield Sand at Stand 242 to see how their expertise and product range can help you achieve a perfect playing surface.
